Description

ABOUT US

AIM Specialty Health® provides clinical solutions that ensure health plan members receive evidence-based, affordable care in the right setting. Serving more than 54 million members across 50 states, D.C. and US territories, AIM promotes optimal care through use of clinical appropriateness guidelines and real-time decision support for both providers and their patients. The AIM platform delivers significant cost of care savings across an expanding set of clinical domains, including radiology, cardiology, oncology, sleep medicine, musculoskeletal care, pain management, genetic testing, rehabilitation, and surgery.
